**PETRONAS** aspires to achieve net zero carbon emissions by 2050, delivering clean energy and low carbon solutions to people globally.

This Aspiration is driven by our need to build a more sustainable business against the backdrop of strong operational excellence, technology & innovation delivery and responsible governance.

Our holistic approach is guided by our four sustainability lenses, which are aligned with the United Nations' Sustainable Development Goals 2030.

## PETRONAS' four lenses of Sustainability

### Continued Value Creation

PETRONAS aims to drive long-term business value creation through responsible investments.

### Safeguard the Environment

PETRONAS strives to collaboratively reduce environmental impact by transitioning to lower carbon energy solutions and deploying innovative operations and technologies.

### Positive Social Impact

PETRONAS aims to create positive alliances with the communities where the company operates by protecting and adding value to the well-being of employees, partners and the society.

### Responsible Governance

PETRONAS aims to safeguard the organisation's commitments by upholding strong governance mechanisms and ethical business practices.
